Dear Students,

I am pleased to make available the University of Toledo Student Directory for the third consecutive year. This directory was designed to be a convenient and versatile reference about the University of Toledo and its area businesses.

The Student Directory is funded entirely through advertising revenue, and I am especially grateful to the corporations and commercial businesses in the greater Toledo area who supported us to make this service possible.

I hope you will find this publication very useful; if you have any comments or suggestions pertaining to this year's issue, please call or stop by the Student Government Office, S.U. 3512

Sincerely,

Brandt England

Student Government is quite literally the voice of the student in the daily function and decision making process at this university. Our job is to make that voice strong and clear. We lobby for student interest on both the state and national level and we have an opportunity to speak out to affect decisions directly relating to student concerns here at UT.

Student Government makes life easier for the students by creating and maintaining many special services designed to meet student needs. We hope that you will find our services of use and hope that you will join us in making Student Government a voice of all students, for we are made up of people like you.
