Students,

Student Government is pleased to present the fourth consecutive edition of the University of Toledo Student Directory. The directory is designed to be a convenient daily reference guide about the University of Toledo and local businesses.

Distributed free of charge and published by students, the Student Directory is funded entirely through advertising revenue. We are especially grateful to those businesses who have invested their advertising dollars in this directory, as well as in the futures of those of us who received valuable business training through its publication.

We hope that you will find the Student Directory both useful and interesting and that you will consult our yellow pages often.

Sincerely,

Kathy Rutkowski

IF YOU'VE GOT THE PHONE, WE'VE GOT THE SERVICE.

Ohio Bell's variety of local service options is designed to meet your needs, whatever they are.

Preferred Student Plan
The Preferred Student Plan offers a private line with unlimited local calling. It also includes Call Waiting and Touch-Tone capability. Other Custom Calling services are available at a discount.

Message Service
This option allows you to make 30 outgoing local calls per month. Each additional call costs seven cents.

Measured Service
Every local call you make is charged based on the amount of time you talk and the distance of the call.

Ohio Bell
AN AMERITECH COMPANY

Check with your Customer Service Representative for availability of Custom Calling Services in your area. Call **245-5656** Monday through Friday between 9:00a.m. and 5:00p.m.

Call Waiting
Don't miss the date of a lifetime because your roommate is on the phone! Call Waiting lets you answer a second call while the first is kept on hold. It's almost like having a second line, but at a fraction of the cost.

Three-Way Calling
Planning a party? Organizing your study group? Instead of making several separate calls, you can talk to two people at once and save time.

Call Forwarding
Reluctant to go out because you're waiting for an important phone call? Call Forwarding lets you transfer your calls to a phone where you can be reached.

Speed Calling
If you dial the same numbers, time after time, Speed Calling is for you. Speed Calling remembers your parents' and friends' numbers for you. You just dial a couple of digits and the phone does the rest.

Touch-Tone Service
Our best line and the fast, convenient way to call. Just tap the buttons for the number you want—no waiting to dial.
